Objective

Industrial visit has its own importance in a career of a student who is pursuing a diploma or degree. It is considered as a part of college curriculum, mainly seen in engineering courses. An objective of industrial visit is to provide students an insight regarding internal working of companies. We know, theoretical knowledge is not enough for making a good professional career. With an aim to go beyond academics, industrial visit provides student a practical perspective on the world of work.

It provides students with an opportunity to learn practically through interaction, working methods and employment practices. It gives them exposure to current work practices as opposed to possibly theoretical knowledge being taught in the classroom. Industrial visits provide an excellent opportunity to interact with industries and know more about industrial environment. Industrial visits are arranged by department to students with an objective of providing students functional opportunity in different sectors like IT, Manufacturing and services,

finance and marketing. Industrial visit helps to combine theoretical knowledge with industrial knowledge. Industrial realities are opened to the students through industrial Visits.

The department organizes industrial visits to help students understand about the practical aspects of production, marketing, labour relations and other activities managed by industrial sectors. Industrial visits to Fanuc India Pvt Ltd, etc. Were arranged for students. The college is actively working for improving the knowledge of their students by acquainting them with fundamental concepts and organizing seminars, workshop and guest lectures by industrial personalities. We also arrange regular competitions, paper presentations, projects, assignments, quiz, group discussion, management games, posters, etc.

Industrial visit organized by HOD Dr.Chandnkar V.M., & Ms.Chavan Kiran & Mrs.Thorat V.S. were the co-ordinator faculty for the industrial visit.

About Event
